

Compact Currency Counters

Engineered for Performance and Reliability

The S-1000 Mini Series High Speed Currency Counters offer small businesses accuracy, speed and durability in a compact, ergonomic design at affordable prices.

Ease of use

The S-1000 Mini Series Compact High Speed Currency Counters are intended for use in mid-volume applications. Designed for operator convenience, the intuitive control panel features batching along with buttons for commonly used features.

High Speed

These counters operate at a counting speed of 900 banknotes per minute - counting tasks that would have taken hours are now reduced to just minutes.

Precision, Accuracy & Reliable Counting

Our Counters are engineered with fully automated, advanced screening capabilities to thoroughly detect errors including double notes, chain notes, half notes, etc. Our counters ensure the most accurate total counts and are designed to offer years of trouble-free operation.

Advanced Counterfeit Detection

Select models offer an advanced counterfeit detection system designed to pinpoint suspect counterfeit banknotes featuring ultraviolet (UV) detection for banknote paper properties and dual magnetic (MG) detection for banknote ink properties.

Compact size

The S-1000 Mini Series offers similar functions and features as many larger machines but in a compact space saving design. Even with its smaller size, the Mini still offers the performance and durability you expect.

S-1000 series

Feed System:
Friction Roller System

Hopper Capacity:
80 - 120 Notes

Stacker Capacity:
80 - 120 Notes

Note Size:
From 115 x 50 to 167 x 85mm
