

Simple operation

Large clear display

The FastSort™ 4500 unit, available exclusively from Thomas Findlay, rapidly sorts and rolls mixed coin - ideal for counting gratuities, petty cash etc. and wrapping for in-house use or for banking.

Functions

- Automatically sorts pennies, nickels, dimes and quarters directly into wrappers
- Uses preformed (shotgun) coin wrappers
- Anti-jamming device allows accurate coin count
- Unattended sorting and counting at up to 300 coins per minute
- Easy access to sorter drum to clear foreign coins, paper clips etc.

Benefits

- Simple, unattended operation - load coins and leave the unit
- Low cost
- Robust, field-proven unit
- Anti-jamming device allows accurate coin count
- Tubes lift out easily

Features

- Hands-free operation - you can be doing other jobs while the unit operates
- Coin tubes automatically adjust to the next empty tube.
- Four-row wrapper capacity for increased speed and convenience.
- Dollar value or piece count display on large, clear LCD display
- Heavy-duty motor

Multiple rolls

Easy access to drum

Big capacity hopper

The FastSort™ 4500 unit is a low cost, high performance solution for all in-store coin sorting and wrapping.
